HISTORY

Incorporated in the 1980s, Al Moussawi Land Transportation (MLT) is a top competitor, leader in the logistic market, and a full service freight forwarder providing land transportation solution.

Since its establishment, MLT walk the talk and achieves strategically set targets all the way through a sustainable growth. The company's strategy and targets align with its mission, vision and values. Everything they do comply with ethical standards assuring a meaningful contribution to the community aiming to a long term success.

Many features characterize MLT and make it stand out among its competitors in both local and regional markets. Starting with the company's leading role in the transportation based on its presence for more than 25 years in the Lebanese and MENA market and reputable heritage from father to sons. MLT has proved excellence in operational process and in quality mangement.

Founded by Ahmad Al Moussawi, MLT has extensive experience operating within the following transportation fields:
Mainly Land, as well as sea and air transportation both domestically and internationally.

MLT transport company has several and consistent services. We combine origin and destination logistics solutions with transportation services across all Arab Gulf countries, the Middle East, as well as turkey, while work mainly focuses on Syria, Iraq & Newly establish in Erbil Kurdistan.

www.mlt-lb.com

With around 60-70 trucks,

varied in size, shape, and type (cooler trucks, flat trucks, etc...) enabling us to manage any kind of cargo from the smallest, most fragile or hazardous to oversized machinery and project cargo, with extensive experience operating within the following transportation material:

- Generators Sets
- Food Supplies
- Medical Equipment
- High-tech Equipment
- Tiers

One aspect of our transpiration is called groupage, where several clients with several cargo are transported in one truck in order to be cost effective and time effective. Also part of our services is to organize all the road permissions and road surveys required.

We can also provide a barge service where possible to transport container, bulk or specialized and project cargo. Furthermore we provide all kinds of shipping solutions including customs clearance services.

Our success

is based on 3 key aspects of the company:

- The Team
- The Procedure
- The Execution

Team is composed of highly professional and dedicated members, composed of the manager, project manager, project supervisors, project executors, among other members who insure the work is done professionally and with ease, insuring client satisfaction.

The procedure of transportation, is characterized by its simplicity and effectiveness.

The execution, which guarantees the satisfaction of our customers with cost effective, reliable and on-time delivery solutions. Maintain a focused activity on certain routes especially Syria and Iraq, we have mastered the time range for transportation. Transportation to Iraq takes five to seven days, and transportation to Syria takes one to three days.

We are synonymous with service quality, reliability and operational excellence. We have a strong focus on delivering high-quality services that consistently meet your requirements and exceed your expectations.

Values

- . Product quality and competitive prices
- . Full customer satisfaction
- . Agreeable business atmosphere and fulfilled employees
